ICYMI: Donalds Joins Daybreak On 92.5 FM WFSX

WASHINGTON – Congressman Byron Donalds (R-FL) joined *Daybreak* on 92.5 FM WFSX Fox News Radio–Estero to discuss the illegal alien who killed three Floridians on the Florida Turnpike with a California commercial driver's license, Congressional efforts to combat illegal sanctuary city policy, and crime in our nation's capital.

Listen the full interview [here](#) or below:

"Funny thing happens when you let law and order reign, crime comes down":

"The difference between D.C. and other cities is that D.C. is the federal enclave per the Constitution, but the President is well within his powers to deploy the National Guard into the District of Columbia. He has a limited ability to do that when it comes to states. That's the responsibility for governors. So again, the governor of Massachusetts, she's a loony tune. The governor of Illinois, we already know he doesn't know what to do. Gavin Newsom, that guy's a jerk, he's on the wrong side of every issue. There are limits in the constitutional republic that we can do for a lot of these large cities and blue states, and this is where democracy comes into play. People have to desire law and order in their communities. If you look at what's happening in D.C., that they just came out with the new stats, crime is drastically down in a District of Columbia. You know why? Because there are more bodies on the street upholding the law in D.C. Funny thing happens when you let law and order reign, crime comes down."

"You talk to normal people... They don't want illegal immigration either":

"You talk to normal people in Detroit, in New York, and Chicago, they don't want illegal immigration either because it overwhelms their schools, it overwhelms their hospitals. It takes away public services from their people who are struggling - who are Americans who are struggling. They don't want it either. It's these radical front groups and billionaires that fund the Democrat Party. That's why this is a problem. It's not the people, it's really not, it's not the people. It's the front groups."
