Donalds And Senate Republicans Demand Impeachment Of Chief Judge James Boasberg

WASHINGTON – This morning, Congressman Byron Donalds (R-FL), Senator Rick Scott (R-FL), and Senator Ron Johnson (R-WI) led a press conference to discuss the "Arctic Frost" witch hunt investigation conducted by President Biden's Department of Justice (DOJ) and to demand the impeachment of D.C. District Court Chief Judge James Boasberg.

President Biden's DOJ ran a covert operation, known as "Arctic Frost," to spy on Republican Members of Congress. During the operation, the FBI obtained direct access to Members' phone records and locations. Under the Fourth Amendment, American citizens, including elected officials, are protected against such unwarranted searches and seizures. This protection was violated by the FBI at the direct order of former Special Counsel Jack Smith and signed-off upon by D.C. District Court Chief Judge James Boasberg.

The press conference followed [recent news](#) that Senator Scott was among the Republican Members of Congress targeted during this unprecedented weaponization of government.
