ICYMI: Donalds Joins Kudlow

WASHINGTON – Congressman Byron Donalds (R-FL) joined *Kudlow* on Fox Business Network to discuss New York Socialist Zohran Mamdani alongside Miranda Devine.

Watch the full interview [here](#) or below:

"I think what they're going to do in the Mamdani camp, they're probably going to have him sound like a moderate Democrat just to get past the election":

"I definitely think he can, especially with a lot of the past comments, tweets, etc. that Mamdani has out there. The big question is number one, is he going to open himself up to it? Number two, are the moderators going to allow for it? That's going to be a big one tonight. And look, I think what they're going to do in the Mamdani camp, they're probably going to have him sound like a moderate Democrat just to get past the election. And then like Miranda's talking about, you're going to see left-wing people go into the administration in the city of New York which is going to be devastating to the city of New York. We've just been through this with Bill de Blasio. He was a terrible mayor, the worst that the city's ever had, and Mamdani is trying to beat him. That's not going to be good for the people of New York. "

"We're all going to be seeing an influx of people because this kind of policy just is not livable, is not survivable":

"Miranda's exactly right. This guy is nuts. His agenda is crazy. It simply does not work. You know, he's trying to get away from telling people he wants the MTA to be free. So now he's just saying he wants it to be fast. I mean, that's the kind of slick talk from radical left-wing Democrats that sounds good in elections but simply doesn't work. I'm saying it as somebody who was born in Brooklyn, New York, who lived in Brooklyn, New York. The MTA, if you make it quote unquote free, it's going to be even worse than it is today. It will not serve the people of New York. You couple that with the additional restraints he's going to put on the NYPD, New York City will become even less safe. So, it's not just going to be Florida, Larry. It's going to be North Carolina, Tennessee, Texas. We're all going to be seeing an influx of people because this kind of policy just is not livable, is not survivable."
