ICYMI: Donalds Joins Fox Across America With Jimmy Failla

WASHINGTON – Congressman Byron Donalds (R-FL) joined *Fox Across America With Jimmy Failla* on Fox News Radio to discuss Florida State University, the College Football Playoff, election interference, and the ongoing investigation into Biden family corruption

Watch the full interview [here](#).

If the son wasn't a crackhead they might have got away with the whole thing:

"...Hunter and Jim were the ones out there doing these deals. And here's the real truth, they probably would've got away with it if the son wasn't a crackhead and just a dunce. If the son wasn't a crackhead they might have got away with the whole thing. But you know, here's the reality Jimmy: These charges that were filed yesterday would never have happened if House Oversight wasn't investigating the Biden family deals, because the Department of Justice under Merrick Garland had this crap deal, this sweetheart deal, where they were going to bury all these tax charges under a misdemeanor, and they were also going to bury a violation of the Foreign Agents Registration Act, which is a felony by the way. They were going to buy that under some dumb gun charge against Hunter Biden, and the only reason that all of that got blown-up was because House Republicans were investigating and telling the American people exactly what the truth was, we found whistleblowers who confirmed that, and then there was a federal Judge who looked at the deal and was like, 'This deal is trash. I'm not signing this deal,' and that's what brought us to where we are today."

All of it was a lie:

"And real quick. Let's go back because you mentioned a good thing about how they interfered in the election with the phony story about how the laptop was Russian disinformation. The person who led the charge on that lie was Antony Blinken, who's the current Secretary of State. So, Tony Blinken's the guy that organized these 51 intelligence community officials saying that the laptop was Russian disinformation. The press runs with that like, 'Oh, well 51 officers said it's disinformation. This is true.' The social media companies were taking down the New York Post story in the middle of an election saying, 'We're not letting this story get out. This is Russian disinformation.' And all of it was a lie. To protect Joe Biden. To stop Donald Trump. All of it was a lie."
