ICYMI: Donalds Joins The Bottom Line

WASHINGTON – Last night, Congressman Byron Donalds (R-FL) joined *The Bottom Line* on Fox Business Network to discuss the impeachment of DHS Secretary Alejandro Mayorkas, the Biden administration spying on the American people, and the impending debate over government funding.

Watch the full interview [here](#).

It destroys the very pillars of the greatest country man has ever known:

“Well look, I would actually communicate to the Speaker and to the other members of Congress, there's this funding deadline that is coming up, March 1st, a secondary one on March 8th. We should be doing everything in these appropriations packages to tie the money on these agencies if they have been spying on the American people. This is outrageous and this is not politics...Overall, the American people need to understand, we can have political disagreements, we can support different people for president, and for U.S. Senate, governor, etc. but the government cannot be wielded as a tool against political opponents. Once it does that, there is a lack of respect for our institutions, and it destroys the very pillars of the greatest country man has ever known. We cannot tolerate that...That should be a nonpartisan position of every member of Congress up here on Capitol Hill.”
