ICYMI: Donalds Joins Varney & Co.

WASHINGTON – Congressman Byron Donalds (R-FL) joined *Varney & Co.* on Fox Business Network to discuss the importance of delivering on President Trump's agenda to make America the crypto capital of the world and the Democrats' full-scale embrace of New York City Marxist, Zohran Mamdani.

Watch the full interview [here](#) or below:

Donalds on Central Bank Digital Currency... "I'm opposed":

"We [Republicans] really are at the goal line per se, and at this point, it's about getting through the GENIUS Act. I think that will get through today. There's still some early morning meetings, but I think that's gonna pass today. And then when it comes to the CLARITY Act, this is about market structure. 93% of the digital assets industry, that's where I think there's gonna be a much stronger attempt to deal with CBDC... CBDCs, I know this is very technical, but a central bank digital currency would essentially give the Federal Reserve an ability to examine and monitor all stablecoin transactions in the United States. That's what members do not want to happen. I'm opposed, the Republican Conference is opposed, these 12 members are vehemently opposed."

"Democrats...recklessly spend money, they over regulate every industry":

"Look, at the end of the day, the policies are crazy. Let's just call it what it is. They're crazy policies, they make no sense. These are things that were tried in the 60s and the 70s. They were actually very detrimental to poor people and working families in our country, and the country moved away from that stuff. And so because the Democrats, to be blunt, recklessly spend money, they over regulate every industry in the United States - making it far more difficult to do basic things. Now they want to return to the crazy policies once again. That is not just a Zohran Mamdani problem, that is a Democrat problem."
