ICYMI: Donalds Joins Political Connections

WASHINGTON – Last night, Congressman Byron Donalds (R-FL) joined *Political Connections* on Spectrum Bay News 9 – Tampa to discuss the the ongoing crisis at the border, the potential impeachment of Alejandro Mayorkas, the Senate's amnesty deal and H.R. 2.

Watch the full interview [here](#).

H.R. 2 is the remedy to solve the problem:

“It would completely end, 'Catch and Release.' We would actually put into law, 'Remain in Mexico Policy,' which was an Executive Order by President Trump, negotiated with the Mexican government—that would become the law of the land. It would address asylum claims. It would tighten-up the asylum procedures, I can go on. Those are three of the main elements. If you just did that, the same border union, they would tell you that would legitimately stop the flow on our Southern border anywhere from sixty to eighty percent of the flow would stop. The big thing that would occur...it would stop the drug cartels from trafficking people into our country and it will also stop the drug cartels from having young girls sold into sex slavery, because that is what's happening on our Southern border. Joe Biden doesn't want to talk about that but those are the facts. H.R. 2 is the remedy to solve the problem. It would actually protect children who are being used as pawns to get into our country because a little-known fact is that when you have these unaccompanied minors, or you're having quote unquote families, what we know is that the kids who are crossing the Southern border with adults, that's not necessarily their family or their parents. These kids are used as pawns. H.R. 2 stops all of that.”
