ICYMI: Donalds Joins Fox Across America With Jimmy Failla

WASHINGTON – Congressman Byron Donalds (R-FL) joined *Fox Across America With Jimmy Failla* on Fox News Radio to discuss the current state of the Democrat Party, college football, and New York State Assemblyman Zohran Mamdani.

Watch the full interview [here](#) or below:

"They have to get rid of that leftism...That stuff is a cancer, not just in their party, it's a cancer in American politics":

"They [Democrats] oppose Trump just cause they got to oppose Trump everywhere. Because they're looking for something to be able to run on next year in the midterm cycle. That's really what's going on us, so whether it's the National Guard, that's why the Democrats, all of a sudden, are clamoring for the Epstein files to be released. Because when Joe Biden was President, they didn't want to release them. But now they want to because they think that hurts Donald Trump. And, so it's, it's not even about their own people. It's how do we oppose Trump so that we can find a way to run against him... I mean look, if they get blown out in the midterms what is the state of a Democrat Party? I believe that what they need to do, which they should have been a long time ago already, is they have to purge the radical left out of that party. And I'm not one of these people who believe in suppression - I think that's wrong. People are allowed to have their opinions, they're allowed to express themselves. But as a party, they got some decisions to make. Are they gonna continue to go down this Bernie Sanders, AOC, Elizabeth Warren woke ideology, foolishness or are they gonna, you know in some respect, go back to the Clinton era where they're trying to triangulate moderates and kinda be a more moderated party. Since the Clinton era, they have gone hard left, that's the truth and they've got away with it based upon just general goodwill from the American voter and then this guy named Donald Trump came along and just, you now, he just wrecked all that. So now, they're a party that doesn't know where they're going. And it's really, they have to get rid of that leftism, man. That stuff is a cancer, not just in their party, it's a cancer in American politics."
