## ICYMI: Donalds Joins Fox News Live

WASHINGTON – Yesterday, Congressman Byron Donalds (R-FL) joined *Fox News Live* on Fox News Channel to discuss the Obama administration's weaponization of the intelligence community against President Trump and the House Oversight and Government Reform Committee's investigation into former President Biden's cognitive decline and his administration's autopen usage.

Watch the full interview [here](#) or below:

**"It is clear that [Trump's] administration was undermined":**

"We know that senior officials in the Obama administration engaged in an intelligence scheme, an intelligence fraud, to undermine the incoming President of the United States at the time which was Donald Trump. If you look at the history, it is clear that his [Trump's] administration was undermined, not just being distracted from doing the job that a President has to do, but also the political fallout amongst the American people. How many Americans, still to this day, believe that the Russian's put up Donald Trump to be a stalking horse? Unfortunately, there are too many Americans who still believe that, and that is why what they did in the Obama administration, on their way out the door, is so heinous and so destructive of our republic."

**"It is Barack Obama's administration that ordered a new intelligence briefing, not based on any facts or any merits":**

"Understand that Joe Biden was Vice President under Barack Obama, we know the history, and if it is Barack Obama's administration that ordered a new intelligence briefing, not based on any facts or any merits but based upon the Steele Dossier, that demonstrates why the former Presidential administration under Joe Biden did not look into any of this because they were covering up for the previous Democratic administration..."
