WASHINGTON – Congressman Byron Donalds (R-FL) joined *Jesse Watters Primetime* on Fox News Channel to discuss Alligator Alcatraz, and the One Big Beautiful Bill Act.

### President Trump promised deportations and is delivering:

"It's really miraculous. Of course, this is the President first, he has led on this, he campaigned on what he was going to do [closing the border down]. Also, the team at the White House - he's put together a great team, everybody is focused on the mission, the entire cabinet is there, and the party stands behind them. So in Florida, when you have Homeland Security working with Governor DeSantis and their team to say, 'Let's get some additional bed space in Florida. Can you stand this up and can we do this?' One, they were able to get that done very, very quickly - that's to the credit of the Governor and his team. It's also a blueprint for other states to say, whether it's Louisiana or any other state, you can do that too. Let's get the bed space that Homeland [Security] needs, so that when we pass One Big Beautiful Bill, they got all the money and resources they need in order to create the logistical framework of deporting criminal illegal aliens, and a lot of these aliens that Joe Biden let in over the last four years."

### We are fulfilling the mandate of the American people:

"So what we're doing here is actually preparing the bed space that is necessary for them to be deported out of the United States, meeting the mandate and the mission given to President Trump by the American people. "
