ICYMI: Donalds Joins The Ingraham Angle

WASHINGTON – Last night, Congressman Byron Donalds (R-FL) joined *The Ingraham Angle* on Fox News Channel to discuss the Trump administration's impending takeover of Union Station in Washington D.C., yesterday's tragic shooting at a Minneapolis Catholic school, and the mental health crisis plaguing our nation.

Watch the full interview [here](#) or below:

"This is not about guns, this is about mental health issues that the radical left refuses to acknowledge":

"Jen Psaki is a hack trying to make a political point. The reality is, the tragedy that occurred today in Minneapolis is once again, where the Democrats are ignoring some of the serious mental health challenges affecting young people in the United States, especially around gender identity, this transgender movement that they have fully gotten behind. On a broader level as a country, we have to take mental health much more seriously, I mean, look at the magazines, what was written on these magazines, talking about going after Christians, 'Where is your God?'. Going after Israel, actually writing to kill Donald Trump. This is the insanity from the hatred that has come from the left. And so if they want to now come out and be mad at people who are trying to sympathize and emphasize with the families, and especially the families of these two young kids that were lost, they need to re-examine everything about their party, it's not the time for politics, it's about comforting the families who have lost two young kids and then examining all the public policy so that this doesn't happen again. And I will tell you, once again, this is not about guns, this is about mental health issues that the radical left refuses to acknowledge. Comes from their crazy ideology which is damaging so many children in the United States who are now becoming young adults."

"Donald Trump is leading our nation by making sure the nation's capital is reflective of the beauty of the entire country":

"Union Station of today absolutely sucks - the thing is awful, it's terrible. The handful of time I've been in there, you're trying to get in and out as quickly as you can. The nation's capital deserves better. Once again, Donald Trump is leading our nation by making sure the nation's capital is reflective of the beauty of the entire country."
