ICYMI: Donalds Joins The Ingraham Angle With Guest Host Raymond Arroyo

WASHINGTON – Last night, Congressman Byron Donalds (R-FL) joined *The Ingraham Angle With Guest Host Raymond Arroyo* on Fox News Channel to discuss election integrity, Democratic party lawfare and election interference, and media complicity.

Watch the full interview [here](#).

They are the ones who are threats to our democracy:

"It's very anti-Democratic. Anybody that says otherwise is a fool and is lying to the American people. I want to talk to Democrat voters for a moment. You rank and file Democrat voters, you work hard, you live life, you're not really political. You have people in your party who are radicals, who are anti-Democratic, they don't believe in the will of the people, they don't believe in votes in the ballot box—legitimate ones—they don't even believe in the rule of law and actually following the rule of law. They only care about their agenda. You gotta stop voting for these people because they are the ones who are destroying America's republic. They are the ones who are threats to our democracy."

The reason why nobody knows...is because 'Big Media' is not going to cover this:

"Before every election, they go into court and they sue constantly, trying to get weakening of election laws, or just complete removal of election procedures on many different areas. This is what happened before the 2020 election. They were in court everywhere trying to get things like these drop boxes in every municipality in the country, saying that it was too hard to vote because of COVID-19, people need to drop it in a receptacle outside the building. That was a joke and a lie. It is not needed. But they do this every single time because they want to weaken the infrastructure of voting. They want to weaken controls around voting. They want to make it easy for these outside groups to drop ballots all over the place and to subvert the will of the voters who actually take their time to do their work. These outside groups need to go. But this is part and parcel of what the Democrats do. These stories now demonstrate what we already have known. The reason why nobody knows about it is because 'Big Media' is not going to cover this."
